Food Logistics Names JTS to 2021 Top Software & Technology Providers List

Fresno, CA – December 29, 2021 — *Food Logistics*, the only publication exclusively dedicated to covering the movement of product through the global cold food supply chain, named Johanson Transportation Service to its 2021 Top Software & Technology Providers award, which honors software and technology providers that ensure a safe, efficient, and reliable global cold food and beverage supply chain.

“Software developments and emerging technologies are what make the world go around. They’re what make supply chains move, even when the world stops. They’re what keeps people, products, and plants safe. They provide traceability, visibility, efficiency, and credibility. The winners from this year’s award prove that there are no limitations to what software and technology can do in the supply chain space,” says Marina Mayer, Editor-in-Chief of *Food Logistics* and *Supply & Demand Chain Executive*.

“Our dedication to technology innovation is a priority as we strive to give our customers extraordinary value in their partnership with JTS. We are honored to be recognized for our ability to offer the best supply chain visibility and management tools on the market,” says President/CEO Larry Johanson.

Recipients of this year’s award are profiled in *Food Logistics’* December 2021 print issue. Go to www.FoodLogistics.com to view the full list of Top Software & Technology Providers.
