JTS ranks 59th among all 3PLs competing in the industry according to *Transport Topics*

Fresno, CA – April 24, 2023 — JTS (Johanson Transportation Service), a leading third-party logistics provider, has announced that their company has been recognized as ranking 59th among all third-party logistics providers competing in the industry – which numbers in the thousands. Today, *Transport Topics* released its annual list of the largest 100 freight brokerage companies in the North America freight transportation industry based on gross revenue for the most recent 12-month period.

“2023 marked a period of energy and growth for JTS despite uncertain economic conditions. Our team worked hard to support customers who were struggling to get their inventories moved amidst an ever-shifting economic climate, tight capacity, and supply chain bottlenecks. Additionally, our rapid investment in JTS’ arriviture® TMS technology has given our customers tools to improve efficiency and speed in getting spot rate quotes and processing orders and gaining visibility into their supply chain to help their logistics operations,” says President/CEO Larry Johanson.
