JTS EARNS INBOUND LOGISTICS RECOGNITION AS 2016 "TOP 100 3PL"

Fresno, CA – August 3, 2016 – JTS (Johanson Transportation Service), a leading third-party supply chain solutions provider, has received recognition as a Top 100 3PL by industry publication *Inbound Logistics Magazine*.

"JTS is proud to be ranked as a 2016 Top 100 3PL provider again this year, being recognized as a company that provides innovative, flexible solutions to help our customers achieve supply chain operations efficiencies. Our success has been greatly due to our dedicated team of employees who work hard to provide reliable service of the highest level to our customers," says Larry Johanson, President and CEO of JTS.

Inbound Logistics editor Felecia Stratton says, *"Every year, leading third-party logistics providers of all shapes and sizes submit their credentials, hoping to match their solutions with our readers' business logistics needs. It remains an increasingly difficult task for the Inbound Logistics editorial team to narrow down the list to only 100 top 3PL providers. Johanson Transportation Service was selected as a Top 100 3PL Provider because its solutions solve specific logistics challenges, improve processes, and create a ripple effect of efficiencies for our readers across their entire value chain."*

Inbound Logistics' Top 100 3PL Provider's list serves as a qualitative assessment of service providers they feel are best equipped to meet and surpass readers' evolving outsourcing needs. Distilling the Top 100 becomes increasingly difficult as more 3PLs enter the market and service providers from other functional areas develop value-added logistics capabilities. Each year, Inbound Logistics editors select the best logistics solutions providers by carefully evaluating submitted information, conducting personal interviews and online research, and comparing that data to our readers' burgeoning global supply chain and logistics challenges. IL editors selected this year's class of Top 100 3PLs from a pool of nearly 300 companies. The service providers we selected are companies that, in the opinion of IL editors, offer the diverse operational capabilities and experience to meet readers' unique supply chain and logistics needs.
